

Sort an Array

```
#include <stdio.h>
int main(){
    int arr[5],i,j;
    printf("Enter array elements:");

    scanf("%d",&arr[i]);
}
for(i=0;i<5;i++){
    for(j=i+1;j<5;j++){
        if(arr[i]>arr[j]){
            int temp =arr[i];
            arr[i]=arr[j];
            arr[j]=temp;
        }
    }
}
printf("Array elements:");
for(i=0;i<5;i++){
    printf("%d ",arr[i]);
}
    return 0;
}
```
